

FUTURE OF WORK

INTERNATIONAL VIRTUAL WORKSHOP, SEPTEMBER 15TH 2020, 5-8pm (EEST)

What will we be doing at work? What types of task-specific skills do we need? What is the role of creativity or critical thinking? Will we ever return back to the offices? Are we all going to become entrepreneurs?

In this workshop we will explore the future of work from five different perspectives. The event is a part of the Management Curriculum for the Digital Era (macude.org) research project interested in finding out what we should be teaching the future workforce. Organized by the Laboratory of Business Disruption Research at the University of Turku (Finland), the workshop is **free of charge**.

Enroll now (latest by Sep 14th) through the following link and secure your peek into the future!
